Why is our organization worthy of your support and worth becoming a member?

Our efforts involve lobbying government on behalf of the exploration sector to ensure we maintain a viable industry in Manitoba. We also inform the public about our industry so that the public can make appropriate choices.

Collectively, our members:

- Recommend, supervise or log over 10,000 meters of diamond drill core annually
- Recommend or interpret thousands of kilometers of geophysical survey lines annually
- Purchase directly 100's of thousands of dollars worth of goods and services annually.

In short, our members are the kind of people your company should get to know. Become a corporate member today.
