---

I am pleased to announce that Tim Friesen has accepted the position of Assistant Deputy Minister with Mineral Resources effective March 2, 2016.

In Tim's previous rolls as Executive Vice-President of the Mining Association of Manitoba and his work with a major mining company, he's had the opportunity to work closely with senior mining officials, First Nation Communities, investment professionals and with many of you within the Department. This broad experience will be a great asset to the Department.

Please help me in welcoming Tim to the Department.
