

Centre, several rinks, we have the Sportsplex with a pool in it, plus an outdoor facility and running track. We have a city-owned golf courses, and several private golf courses, spray parks, the list goes on and on. How much should we spend just to entertain kids?

### **BUILD THOSE MINES PLEASE**

To "Mining Not Worth The Cash For Manitoba" — speak for yourself. The vast majority of us would like to see every last dollar this economy can create and generate to try and pay off the economic fiasco that our last government created and

return some of the money that our children are going to lose as a result of their mismanagement. Second, no of course we're not going to reclaim the tailings pond up in Flin Flon, any more than we're going to reclaim the sewage pond outside of Brandon. We're going to sacrifice very small pieces of land for very large returns or purposes. Thirdly, with respect to consultation, yes we should investigate, prosecute, and publicize where the hundreds of millions of dollars have gone through Manitoba Hydro and the last government to friendly consultants. That consultation scam has gone on way too long. It's time to clean up the last government's mess.
