

# MAMI update to MPDA

April 5, 2017

Andrea McLandress

Executive Director

# My family

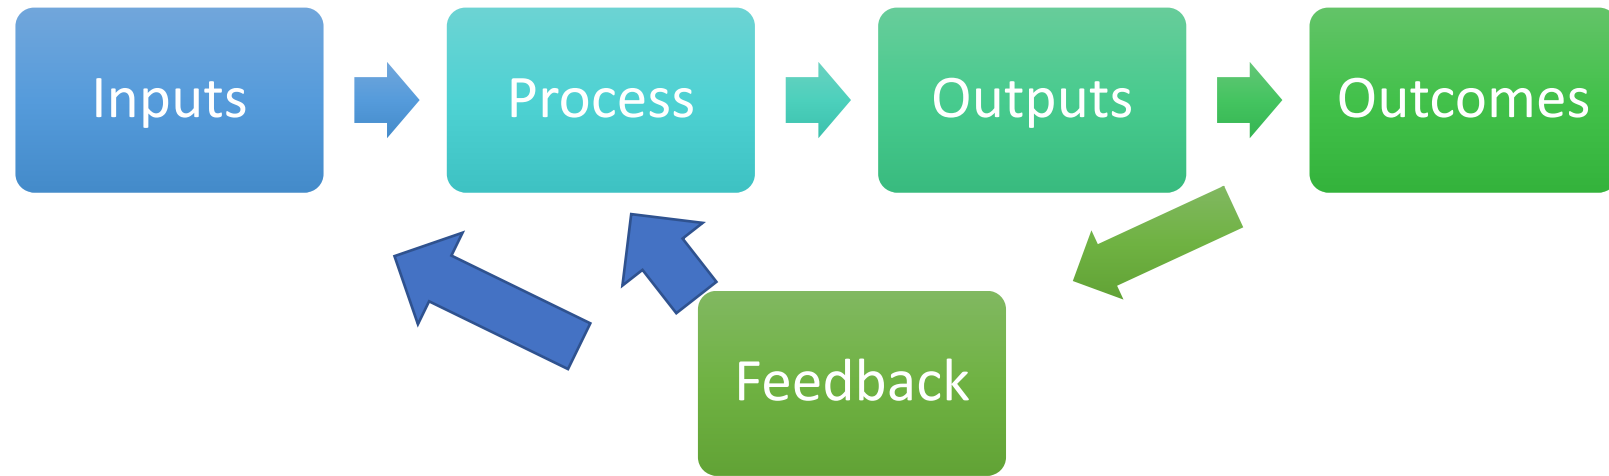

# My background

- Winnipegger
- University of Manitoba
- Decade in energy, energy and mining services, business development
- Flin Flon

# What I contribute

- Lessons learned
- Relationships
- Connecting big picture outcomes to interests of affected parties
- “know what I don’t know” – consult subject matter experts
- Cooperation
- Always be at the table

# Process

# Priority areas

Common challenges:   

Common strengths: will, alignment

1. Safety and mine rescue
2. Indigenous relations
3. Competitive regulatory climate
4. Communications and advocacy
5. Education and Information hub

# 1. Safety and mine rescue

- Great safety record
- World-class mine rescue organization, competitions
- Regulations, government
- Public awareness

## 2. Indigenous relations

- Relationship history
- Stakeholders vs rights holders
- TRC, UNDRIP
- Public perception
- Environmental issues
- Diversity
- Entrepreneurialism, desire for success, emerging middle class, best practices

# 3. Competitive regulatory climate

- Permitting issues
- Provincial revenue issues
- Manitoba Hydro
- Carbon emissions
- Consultation – law, best practices
- Internally – competing interests

## 4. Communications and advocacy

- Geography
- Public perception, understanding and support
- Government
- Best practice vs current practice

# 5. Education and information

- Audience
- MMR, Geological survey
- Best practice vs current practice
- Canada's Energy Citizens, CAPP, CEPA, MAC, etc

# 6. Operations

- Update processes
- Corporate culture

# Questions? Suggestions?

- How can MAMI build a stronger relationship with MPDA?
- How can MAMI support prospecting?

Tomorrow

Thank you!
