MANITOBA PROSPECTORS AND DEVELOPERS ASSOCIATION

CONNECTING • COLLABORATING • ADVANCING

Dear Colleague,

The Manitoba Prospectors & Developers Association (MPDA) is inviting select legal, financial, engineering, accounting, Indigenous, and industry leaders to become strategic corporate members and partners in helping shape Manitoba's exploration and critical minerals future.

As global demand for critical minerals accelerates, Manitoba is positioned for significant long-term growth, investment, and responsible resource development. MPDA supports collaboration across the sector by connecting Indigenous leadership, industry, government, investors, explorers, developers, and strategic partners through meaningful dialogue, engagement, and relationship-building opportunities.

Through membership, organizations gain access to executive networking, strategic introductions, industry events, leadership discussions, and sector engagement opportunities that support visibility, business development, and long-term partnership growth within Manitoba's resource economy.

Our work is grounded in collaboration, economic reconciliation, practical engagement, and strengthening Indigenous participation within Manitoba's exploration and critical minerals sector.

More than a membership organization, MPDA is building a leadership table where industry, Indigenous communities, government, and strategic partners can advance responsible development and long-term economic opportunity together.

We welcome the opportunity to work alongside organizations committed to responsible development, strategic collaboration, and Manitoba's evolving resource sector.

Sincerely,
MPDA Leadership
